

Harmony XVR Rotating Mirror Beacons and XCS Sirens & Electronic Alarms

The new Schneider Electric line of Harmony XVR Rotating Mirror Beacons and XVS Sirens & Electronic Alarms are now available.

The XVS Sirens and Electronic Alarms are audible signaling units for long distance indication of the operating status or sequences of a machine. Typical applications are on conveyor lines and automated industrial vehicles. The XVS Siren includes up to 43 selectable tones with volume control up to 105 decibels. The XVS Electronic Alarms have 16 selectable tones or melodies with 4 inputs and volume control up to 90 decibels.

The XVR Rotating Mirror Beacons are available in 12 Volt and 24 Volt versions in a variety of long-life LED colors including red, orange, green and blue. All XVR products are pre-wired from the factory for time-saving installation. All devices are IP23 (similar to NEMA Type 1 general purpose rating) and many devices can be upgraded to IP65 (similar to NEMA Type 4 watertight and dust-tight rating) with optional rubber base.

These products are UL Recognized and CE marked.
